autopilot pilots manual p3a amp p3b motorcycle in
seattle washington us for us 12 95, a eromobil the
flying car is the core product of the slovakia
based company aeromobil it has been in development
since 1989 when stefan klein the founder and head
of the department of transport design at the
academy of fine arts in slovakia began working on
a concept of a flying car, the autopilot including
imu and computer is approximately ap w 0 3 kg
assuming the weight of the structure to be w st 1
kg and a 1 5 kg margin total the total mass of the
sailplane should not exceed m 5 kg note that the
lightweight and inflatable design makes it
possible to fit the craft inside the cubesat, for
